PROJECT QUESTIONS

What percentage of the redevelopment is completed?

When was redevelopment completed or when will it be completed?

What percentage of the development is occupied/leased?

Is the development accessible through multiple modes of transportation? (i.e. bike path, bus) If yes, identify the mode and route name/number.

Does the redevelopment follow an approved strategic plan? Identify the plan.

What infrastructure improvements have been made to the property? (i.e. roads, sidewalks, rail line, water or sewer lines, telecommunications)

PROJECT SUMMARY

- Brief History of the Property
- Redevelopment Project Summary
 - Description of Redevelopment Activities
 - Breakdown of End Uses (% and square feet of Commercial, Residential, and Industrial Space)
 - Attach a Development Site Plan
 - Property Improvements
 - Marketing Strategy for Redevelopment
- Time line of Redevelopment Activities
 - When did activities began? When were they completed?
 - If redevelopment was phased, how many phases are completed and remain?
- Sustainability Components
 - Were LEED guidelines or other green building techniques used during construction?
 - Were other sustainability techniques used in construction? (i.e. Best Management Practices or green infrastructure)
 - Alternative Energy Use
 - Was alternative energy used during construction?
 - Is alternative energy being used by the end user(s)?
 - Is alternative energy being generated and sold to off property users or energy companies?
- End Users - Include both current and future end users
 - Who are the end users? What do they do? How long have they been there? How long are leases?
 - Jobs - Number Created and Average Wage
 - Number Retained, Average Wage, and Where are they retained from?
 - Attach end user profiles or additional information about the end users
- Project Sources and Uses - Attach a final version
 - Other financial sources/incentives
- Future Redevelopment Plans
 - On Property or Surrounding Property
 - Plans and Time line
- Describe the overall impact of redevelopment on the community or area
 - Has the project spurred/influenced redevelopment on surrounding property? If yes, how?
- What changes were made from the original redevelopment plans in the application?
 - Why? When were changes made? Did they delay the redevelopment?

PROJECT NAME:

GRANT CONTROL NUMBER:

ENVIRONMENTAL IMPROVEMENTS

- Provide a summary of the environmental activities
 - Type of Remediation - Soil, Groundwater, Asbestos, Indoor Air
 - Describe any sustainable practices used during remediation (i.e. reuse or recycle demo material)
- Are there any required ongoing environmental monitoring/maintenance requirements?
- Has the Covenant Not to Sue (CNS) been amended or altered since it was issued?
 - Have any additional cleanup/demolition activities occurred since the CNS was issued?

PROJECT PHOTOS - Include both Before and After Photos

Click to insert Project Photos (.jpeg/.gif)

ATTACHMENTS

Attach additional information including a development site plan, end user profiles, final financial statements for the redevelopment, final sources and uses, and any additional photos.
