## State Helps Improve Sewer Lines in Nelsonville

The city of Nelsonville (Athens County) will receive a grant to improve the sewer lines along Robbins Road. The grant is through the Community Development Block Grant Residential Public Infrastructure Program.

The city will receive a \$249,000 grant to install approximately 2,767 linear feet of sewer line and one pump station as well as connect eight low- to moderate-income households to the system. The project will benefit 16 households in the area.

“Reliable and safe water systems are integral to providing Ohioans with a strong quality of life,” said David Goodman, director of the Ohio Development Services Agency.

The Residential Public Infrastructure Program is administered by the Ohio Development Services Agency’s Office of Community Development.
