Introduction

According to Ohio Revised Code Section 174.05, the Ohio Department of Development is required to submit an annual report to the President of the Ohio Senate and the Speaker of the Ohio House of Representatives describing the activities of the Department under Ohio Revised Code Section 174.01 to 174.07 during the previous state fiscal year.

History

To address Ohio's housing needs, Ohio's housing advocates, led by the Coalition on Homelessness and Housing in Ohio, began a grassroots campaign to improve Ohio's housing conditions. The campaign's first success came in November 1990 when Ohio voters approved Issue 1, a constitutional amendment making housing a public purpose. During the following year, the Ohio Legislature passed implementing legislation (House Bill 339) to establish the Ohio Housing Trust Fund and an Advisory Committee to work with the Ohio Department of Development (the administering agency) to develop the fund's housing programs and policies. In the 1992-1993 Ohio Biennium Budget, \$5 million of state general revenue was allocated to the fund. Immediately, Ohio's housing advocates began lobbying for an Ohio Housing Trust Fund permanent, stable funding source.

For the next 12 years, the fund's allocation level was affected by the state's sluggish economy and the high demand for other state-funded services, including education. During that period, the allocation level fluctuated from \$5 million for a biennium to \$20 million for one year. In 2002, to expand the lines of communication with housing providers, housing developers, bankers, real estate agents, local governments, nonprofit organizations, housing advocates, and citizens, the Ohio Department of Development Director established the Affordable Housing Taskforce. After full consideration of the various funding options and housing needs, the Taskforce recommended an increase in recordation fees to provide a permanent, dedicated funding source for the Ohio Housing Trust Fund. This was the third committee to recommend an increase in the recordation fees in order to permanently fund the Ohio Housing Trust Fund. Throughout the process, there was a virtual consensus regarding the extent of the affordable housing crisis and the critical role state resources could play in cementing and invigorating the public/private partnerships in Ohio's communities to save, maintain, and increase affordable housing for low- and moderate-income families. During the process, the Coalition on Homelessness and Housing in Ohio and the Ohio Department of Development served as advocates and the primary initiators for the permanent funding source by building a statewide advocacy network and encouraging continued communication with the Governor's Office and the State Legislature. In addition, the Coalition on Homelessness and Housing in Ohio collected endorsements for the permanent funding source and launched an e-advocacy tool to increase participation, efficiency, and effectiveness of advocacy efforts.

In June 2003, the Ohio Legislature responded to the taskforce's recommendation and the endorsements of more than 900 local governments, businesses, nonprofit service providers, financial institutions and religious organizations from all 88 Ohio counties and included an increase in the recordation fees in the 2004-2005 Ohio Biennium Budget, as a permanent, dedicated funding source for the Ohio Housing Trust Fund.

In the 2010-2011 Ohio Biennium Budget, the Ohio Legislature appropriated \$53 million each year to the Ohio Housing Trust Fund.

The Ohio Department of Aging will administer the Resident Services Coordinator Program. The OHTF dollars will be awarded to nine nonprofit organizations to provide part-time service coordinators for 18 properties that are recipients of Ohio Housing Tax Credit financing or part of the Ohio Housing Finance Agency's project-based Section 8 portfolio. The goal of the program is to help elderly and disabled low-income residents of rental housing identify and obtain services and benefits offered in the local community. Resident service coordinators interact with residents, residents' families, property management and community service providers. As a result of the program, the residents will have increased access to services and benefits and maintain their independence. In addition, the resident service coordinators will reduce the rental housing owners'/property managers' resident issues burden, help tenants maintain their apartments and comply with the lease terms, and decrease turnover and vacancy rates. Of the \$315,000 award, \$15,000 is allocated to administration.
