

OHIO PUBLIC K-12 ENERGY EFFICIENCY PROGRAM

Program Overview

- Helps reduce energy costs and improve energy efficiency in school facilities.
- Process that includes a facilitated energy management assessment and energy audit.
- Financing available to implement identified efficiency measures.

Eligible Applicants

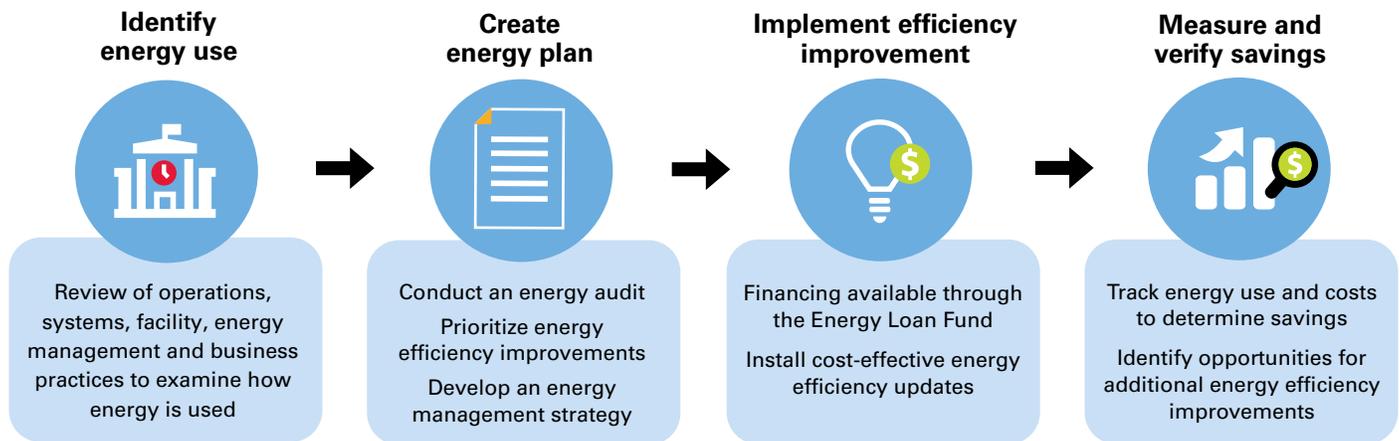

- Local public school districts.

Funding Available

- Up to \$20,000 per school district for 20 districts that will fund the work to identify energy use and create energy plan.
- No cost share required.

How it Works

Working with the Ohio Development Services Agency, customers follow a structured four-phase process to identify and implement energy efficiency measures.

How to Get Started
