TRAINING AND TECHNICAL ASSISTANCE 113

Grantees will ensure that employees and contractors have access to appropriate information and training that is provided by the ODOD in support of the HWAP.

access to training
113-1

Grantees will ensure that employees and contractors will seek appropriate training and, when necessary, attend training as required by the ODOD.

obtain training
113-2

Grantees will ensure that knowledge and skills gained from training will be applied to the operation of the HWAP.

apply training
113-3

Grantees will ensure that employees and contractors, as weatherization professionals, will seek and use training and technical assistance in order to stay current with up-to-date weatherization knowledge and skills.

continuing education
113-4

Employees and contractors are required to complete the updates or training courses following the schedule listed here: Inspector Refresher every 3 years, and Heating Technician Refresher every 3 years.

All heating contractors must be either state-certified or locally-certified by an equivalent state test, or have completed the Furnace Maintenance and Repair or Combustion for Heating Contractors course from the Ohio Weatherization Training Center (OWTC).

contractor training requirements
113-5

All weatherization contractors must have blower door training and must follow the WPS for pressure diagnostics testing (worst case draft, pressure pan, room-to-room pressure testing, and series leakage (zone) testing).
