Grant to Improve Water System in Coolville Village

Coolville Village (Athens County) will receive a grant to help improve the water quality in the village. The grant is from the Community Development Block Grant, Residential Public Infrastructure Program.

The village will receive a \$600,000 grant to install a new wastewater collection and treatment system. The project will connect 100 low- and moderate-income residents to the system and will benefit a total of 207 households in the area.

“Access to a reliable and safe water system improves the quality of life for those living in the village,” said David Goodman, director of the Ohio Development Services Agency.

The Community Development Block Grant Program is administered by the Ohio Development Services Agency’s Office of Community Development.
