State Gives Money for Local Infrastructure Improvements

The Ohio Development Services Agency awarded 23 communities grants to assist with public facility, street, bridge and neighborhood improvements. The grants total more than \$8 million and will generate more than \$12.7 million in additional project funds.

“The state is committed to investing in neighborhoods and business districts to improve the quality of life in a community and position it for growth,” said David Goodman, director of the Ohio Development Services Agency.

Clermont County will receive a \$70,500 Critical Infrastructure grant to replace the Spring Street Bridge. The project benefits 3,257 residents in Bethel Village and Tate Township.

The Critical Infrastructure program is a competitive grant within the Community Development Block Grant program. Projects funded through this program improve public facilities and infrastructure.
