## Grant Improves Water System in Village of Stockport

**COLUMBUS** – The village of Stockport (Morgan County) will receive a grant to improve the village water system. The grant is from the Community Development Block Grant, Residential Public Infrastructure Program.

The village will receive a \$590,000 grant to replace the village wastewater treatment plant. The new plan will be constructed at the site of the existing facility and will benefit 195 households in the area.

“Efficient and safe water systems are integral to providing a strong quality of life for Ohioans,” said David Goodman, director of the Ohio Development Services Agency. “Reliable infrastructure also better positions our communities for economic development.”

The Community Development Block Grant Program is administered by the Ohio Development Services Agency’s Office of Community Development.
