## Grant to Improve Water System in Pulaski Township

**COLUMBUS** – Williams County will receive a grant to help Pulaski Township improve a residential water system. The grant is from the Community Development Block Grant, Residential Public Infrastructure Program.

The county will receive a \$78,000 grant to connect a rural home community to the county's wastewater collection system. The project will benefit 41 households in the area.

“Access to a reliable and safe water system will improve the quality of life of people living in the township,” said David Goodman, director of the Ohio Development Services Agency.

The Community Development Block Grant Program is administered by the Ohio Development Services Agency's Office of Community Development.
