PER CAPITA AND TOTAL PERSONAL INCOME

Contents

These data sets include aggregate personal income (in thousands of dollars) and per capita income for the state and 88 counties. Per capita personal income (PCI) is the total personal income of the residents of an area divided by the resident population. No adjustment for inflation has been made.

Source

Regional Economic Information System (REIS): CA05.1 [machine-readable database] / prepared by the Bureau of Economic Analysis (BEA). Washington, D.C.: the Bureau [producer and distributor], 2002. Also available at <<http://www.bea.doc.gov/>>.

Frequency

Annually, usually available about May.

Time Period Covered

1995-2000. The larger data set covers the period from 1969-2000.

Geographic Areas

Data in this report are presented for the state and the 88 counties. The larger data set includes data for metropolitan areas, divisions, regions, and the nation.

Comparison to Other Data Sets

BEA PCI figures are greater than Census figures for comparable years because the BEA included deductions for retirement, medicaid and medicare payments, and the value of food stamps, among other things.

REIS CD-ROM

The REIS CD-ROM contains a variety of economic information covering the 1969-2000 period. Go to the BEA's web site for more information.
