U.S. GOVERNMENT PROCUREMENT CONTRACT AWARDS

Contents

These tables present data on U.S. Government procurement contract awards for fiscal years (FY) 1995-2001. The Census Bureau obtains procurement data from the Postal Service and the Federal Procurement Data Center (FPDC). The FPDC collects data on a quarterly basis from most Federal departments and organizes these data according to the county of performance, not the location of the prime contractor. Excluded from the procurement totals are the amounts for the judicial and legislative branches, as well as intergovernmental transfers of funds.

Most contract actions provided by the FPDC with values under \$25,000 are not distributed by state and county. FPDC data represent the value of obligations for contract actions, and do not reflect actual expenditures. In general, only current year contract actions are reported. However, multiple year obligations may be reflected for contracts of less than three years duration. Contractual actions for service often not generally associated with procurement, such as the purchase of utilities and building leases, are included in the database.
