A State Affiliate of the U.S. Census Bureau

A large graphic of the state of Ohio, composed of a grid of small, light gray circles. The circles are arranged to form the outline of the state, with some circles missing to create a dotted effect.

Ohio County Indicators

July 2010

Ted Strickland, Governor of Ohio
Lee Fisher, Lt. Governor of Ohio
Lisa Patt-McDaniel, Director, Ohio Department of Development

Department of Development

Ted Strickland, Governor
Lee Fisher, Lt. Governor

Lisa Patt-McDaniel, Director

Dear Fellow Ohioans:

The Ohio Department of Development is pleased to publish *Ohio County Indicators*, which lists demographic and economic activity in each of Ohio's 88 counties. This publication is compiled by the Department's Policy, Research, and Strategic Planning Office, which carefully collected data from state and federal data sources and compiled the results into 49 tables.

General themes presented in this report include Population, Income, Employment, Building Permits, Property Values, and Business Indicators. Each table lists the 88 counties in Ohio and provides multiple years of data on a specific topic, allowing you to compare and contrast the performance of the diverse economic regions across our state.

As our state's largest county with respect to population, Cuyahoga County makes up 11 percent of our state's total population. By 2020, Delaware County is projected to grow by 95.9 percent from 2000. Williams County in Northwest Ohio has the largest percentage of its workforce dedicated to manufacturing at 32 percent. These are just a few of the many facts presented in this edition of *Ohio County Indicators*.

Data in the report is presented by topic, and the reader can quickly compare a county's relative position to its neighbors. In its companion publication, *County Profiles*, data is presented by geography with data for one county combined in a concise, five-page format. These two reports allow you to analyze county demographic and economic data in the way that best suits your needs. Both reports are available on the Department's Web page:
<http://development.ohio.gov/research/CountyTrends.htm>.

I invite you to review the attached report to further your understanding of Ohio's counties and our state's diverse economy. We welcome your input. If you have any questions or comments, please contact John Magill, our Department's Chief Strategic Officer, at (614) 466-2116.

Sincerely,

Lisa Patt-McDaniel
Director

PERSONAL INCOME--46

PERSONAL INCOME

Contents

These data sets include aggregate personal income (in thousands of dollars) and per capita income for the state and 88 counties. Per capita personal income (PCI) is the total personal income of the residents of an area divided by the resident population. No adjustment for inflation has been made.

Source

The Bureau of Economic Analysis's (BEA's) website for state and local statistics: <http://www.bea.gov/>.

Frequency

Annually, usually available about May.

Time Period Covered

2003-2008. The larger data set covers 1969-2008.

Geographic Areas

Data in this report are presented for the state, the 88 counties, and occasionally the nation. The larger data set includes data for metropolitan areas, divisions, and regions.

Comparison to Other Data Sets

BEA PCI figures are greater than Census figures for comparable years because the BEA included deductions for retirement, medicaid and medicare payments, and the value of food stamps, among other things.

REIS CD-ROM

The REIS CD-ROM contains a variety of economic information covering 1969-2008. Go to the BEA's web site for more information.

55--TRANSFER PAYMENTS

**Transfer Payments
Table of Contents**

Table/Graph	Title	Page #
	Transfer Payments	56
Table 20.	Total Transfer Payments, 2003-2008	57

TRANSFER PAYMENTS--56

TRANSFER PAYMENTS

Content

The data in this table are aggregate transfer payments (in thousands of dollars). No adjustment for inflation has been made. The latest year for total personal income is included for the calculation of a dependency ratio - i.e., total transfer payments as a percentage of total personal income in 2008. The counties are ranked by their dependency on transfer payments, with one indicating the greatest dependence.

A transfer payment is a payment to a person, usually in monetary form, for which that person has not rendered a service. Examples include unemployment benefits, social security and other retirement benefits, and the value of food stamps, among other things.

Source

The Bureau of Economic Analysis's (BEA's) website for state and local statistics: <http://www.bea.gov/>.

Frequency

Annually, usually available about May.

Time Period Covered

2003-2008. The larger data set covers 1969-2008.

Geographic Areas

Data in this report are presented for the state, the 88 counties, and the nation. The larger data set includes data for metropolitan areas, divisions, and regions.

REIS CD-ROM

The REIS CD-ROM contains a variety of economic information covering 1969-2008. Go to the BEA's web site for more information.
