Female householder, no husband present, with related children	12,251	55.2%
Families with no related children	4,521	20.4%

Ratio of Income in 1999 To Poverty Level	Number	Percent
Population for whom poverty status is determined	1,140,190	100.0%
Below 50% of poverty level	50,665	4.4%
50% to 99% of poverty level	60,408	5.3%
100% to 149% of poverty level	81,736	7.2%
150% to 199% of poverty level	92,974	8.2%
200% of poverty level or more	854,407	74.9%

Residence in 1995	Number	Percent
Population 5 years and over	1,096,685	100.0%
Same house in 1995	612,790	55.9%
Different house, same county	298,299	27.2%
Different county, same state	105,576	9.6%
Different state	69,634	6.3%
Puerto Rico or U.S. islands	396	0.0%
Foreign country	9,990	0.9%

## Travel Time To Work

	Number	Percent
Workers 16 years and over	556,028	100.0%
Less than 15 minutes	184,831	33.2%
15 to 29 minutes	229,993	41.4%
30 to 44 minutes	80,968	14.6%
45 to 59 minutes	23,426	4.2%
60 minutes or more	22,779	4.1%
Worked at home	14,031	2.5%

**Mean travel time** 21.3 minutes

## Housing Units

	Number	Percent
Total housing units	498,195	100.0%
Occupied housing units	464,050	93.1%
Owner occupied	318,440	63.9%
Renter occupied	145,610	29.2%
Vacant housing units	34,145	6.9%

## Year Structure Built

	Number	Percent
Total housing units	498,195	100.0%
Built 1995 to March 2000	30,563	6.1%
Built 1990 to 1994	24,884	5.0%
Built 1980 to 1989	42,045	8.4%
Built 1970 to 1979	85,683	17.2%
Built 1960 to 1969	86,171	17.3%
Built 1950 to 1959	84,359	16.9%
Built 1940 to 1949	44,436	8.9%
Built 1939 or earlier	100,054	20.1%

**Median year built** 1967

## Value for Specified Owner-Occupied Housing Units

	Number	Percent
Specified owner-occupied housing units	280,805	100.0%
Less than \$20,000	1,688	0.6%
\$20,000 to \$39,999	8,540	3.0%
\$40,000 to \$59,999	24,535	8.7%
\$60,000 to \$79,999	50,629	18.0%
\$80,000 to \$99,999	60,331	21.5%
\$100,000 to \$124,999	45,493	16.2%
\$125,000 to \$149,999	34,797	12.4%
\$150,000 to \$199,999	32,381	11.5%
\$200,000 to \$249,999	10,653	3.8%
\$250,000 to \$499,999	10,555	3.8%
\$500,000 to \$999,999	935	0.3%
\$1,000,000 or more	268	0.1%

**Median value** \$98,117

## House Heating Fuel

	Number	Percent
Occupied housing units	464,050	100.0%
Utility gas	279,235	60.2%
Bottled, tank or LP gas	33,558	7.2%
Electricity	119,893	25.8%
Fuel oil, kerosene, etc	24,343	5.2%
Coal, coke or wood	3,900	0.8%
Solar energy or other fuel	2,096	0.5%
No fuel used	1,025	0.2%

## Gross Rent

	Number	Percent
Specified renter-occupied housing units	142,803	100.0%
Less than \$100	2,000	1.4%
\$100 to \$199	7,111	5.0%
\$200 to \$299	8,035	5.6%
\$300 to \$399	17,485	12.2%
\$400 to \$499	27,689	19.4%
\$500 to \$599	26,847	18.8%
\$600 to \$699	19,352	13.6%
\$700 to \$799	11,903	8.3%
\$800 to \$899	6,222	4.4%
\$900 to \$999	3,336	2.3%
\$1,000 to \$1,499	4,177	2.9%
\$1,500 or more	1,321	0.9%
No cash rent	7,325	5.1%

**Median gross rent** \$519

Median gross rent as a percentage of household income in 1999

## Selected Monthly Owner Costs for Specified Owner-Occupied Housing Units

	Number	Percent
Specified owner-occupied housing units with a mortgage	199,705	100.0%
Less than \$400	6,051	3.0%
\$400 to \$599	22,556	11.3%
\$600 to \$799	41,852	21.0%
\$800 to \$999	43,976	22.0%
\$1,000 to \$1,249	36,816	18.4%
\$1,250 to \$1,499	21,912	11.0%
\$1,500 to \$1,999	17,994	9.0%
\$2,000 to \$2,999	7,035	3.5%
\$3,000 or more	1,513	0.8%

**Median monthly owners cost** \$929

Median monthly owners cost as a percentage of household income

## Vital Statistics

	Number	Rate
Births / rate per 1,000 women aged 15-44	14,899	62.9
Teen births / rate per 1,000 females 15-17	510	21.0
Deaths / rate per 100,000 population	11,361	971.1
Marriages / rate per 1,000 population	7,363	6.3
Divorces / rate per 1,000 population	4,515	3.9

## Migration

## Agriculture

Land in farms (acres)	1,790,000
Number of farms	8,900
Average size (acres)	201
Total cash receipts	\$777,047,000
Per farm	\$86,918

## Education

Public schools	427
Students (Average Daily Membership)	186,038
Expenditures per student	\$9,149
Student-teacher ratio	
Graduation rate	
Teachers (Full Time Equivalent)	10,897.0
Non-public schools	72
Students	17,017
4-year public universities	2
Branches	0
2-year public colleges	3
Private universities and colleges	7
Public libraries (Main / Branches)	27 / 49

## Transportation

Registered motor vehicles	1,285,528
Passenger cars	867,901
Noncommercial trucks	196,801
Total license revenue	\$32,278,481.55
Interstate highway miles	181.34
Turnpike miles	0.00
U.S. highway miles	400.76
State highway miles	1,221.39
Commercial airports	19

## Voting

Number of precincts	1,056
Number of registered voters	784,119
Voted in 2006 election	452,754
Percent turnout	57.7%

## Health Care

Physicians (MDs & DOs)	2,695
Registered hospitals	22
Number of beds	4,555
Licensed nursing homes	90
Number of beds	9,449
Licensed residential care	59
Number of beds	4,103
Adults with employer-based insurance	63.9%
Children with employer-based insurance	64.3%

## State Parks, Forests, Nature Preserves, And Wildlife Areas

Facilities	41
Acreage	16,369.88

## Communications

Television stations	8
Radio stations	34
Daily newspapers	12
Circulation	239,118

## Crime

Total crimes reported in Uniform Crime Report	44,209
---	--------

## Finance

FDIC insured financial institutions (HQs)	30
Assets	\$6,811,701,000
Branch offices	386
Institutions represented	53

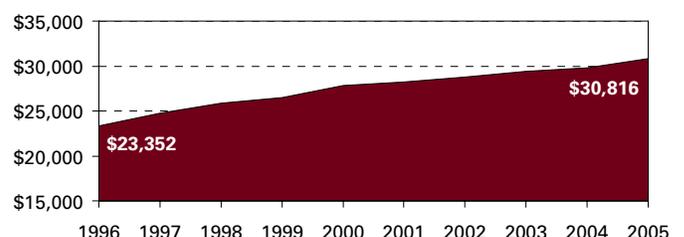

## Transfer Payments

Total transfer payments	\$6,303,752,000
Payments to individuals	\$5,989,838,000
Retirement and disability	\$2,520,069,000
Medical payments	\$2,576,629,000
Income maintenance (Supplemental SSI, family assistance, food stamps, etc)	\$555,550,000
Unemployment benefits	\$107,568,000
Veterans benefits	\$159,037,000
Federal education and training assistance	\$68,330,000
Other payments to individuals	\$2,655,000
Total personal income	\$35,963,516,000
Dependency ratio	17.5%

## Federal Expenditures

Direct expenditures or obligations	\$8,909,335,367
Retirement and disability	\$3,095,417,986
Other direct payments	\$1,448,140,173
Grant awards	\$1,357,982,852
Highway planning and construction	\$66,910,532
Temporary assistance to needy families	\$78,154,517
Medical assistance program	\$750,549,304
Procurement contract awards	\$1,559,979,507
Dept. of Defense	\$1,128,874,362
Salary and wages	\$1,447,814,849
Dept. of Defense	\$1,106,398,000
Other federal assistance	\$1,513,829,533
Direct loans	\$42,491,454
Guaranteed loans	\$828,208,874
Insurance	\$643,129,205

## Per Capita Personal Income

## Civilian Labor Force

	2002	2003	2004	2005	2006
Civilian labor force	598,500	598,900	599,000	598,800	602,000
Employed	565,100	562,400	563,200	565,700	567,700
Unemployed	33,400	36,500	35,800	33,100	34,300
Unemployment rate	5.6	6.1	6.0	5.5	5.7

## Executive Summary

- The Southwest Central Ohio EDR contains the Dayton and Springfield MSAs. Strong pulls in Montgomery and Greene Counties make this region a net in-commuting area.
- 2006 population was approximately 1.17 million, a decline of 1.2 percent from 1995. This region has a slightly smaller prime working-age population than the rest of Ohio and a higher share of elderly residents.
- Total nonfarm employment in 2006 was about 533,000, a drop of 5.3 percent since 2000. The greatest job losses were in Montgomery County.
- Unemployment was 5.6 percent in 2006, a decline of 0.7 percentage point from the last peak in 2003.
- Per-capita income in 2005 was \$30,816, having grown at a 3.1 percent annual compound rate from 1995, lower than the state and national rates.
- Approximately 2,900 residential construction permits were granted in 2006, a significant drop from a building boom in 2003.
- Regional employment is projected to grow 4.0 percent from 2004 to 2014. Education and health services; administrative and waste services; accommodation and food services; and finance and insurance will be the fastest-growing sectors during this period.
- Healthcare; education, training and library; sales and related; and computer and mathematical occupations are projected to be the fastest-growing occupational groups.
- There are 35 postsecondary institutions in this region. Nearly 14,600 degrees and certificates combined were awarded in 2006, 10.3 percent higher than in 2005.
- Reading comprehension will be the most highly-demanded workplace skill in this region through 2014.

## I. Understanding the Local Labor Market

Labor economists define a *labor market* as a geographic area in which both the demand and supply for labor are met primarily within that region.<sup>1</sup> In other words, it is an area where there are jobs and the majority of workers needed for those jobs. An important first step in identifying local labor markets is to examine the commuting patterns of individuals who live or work in the area. These patterns are one of the primary inputs used to define metropolitan areas.

While the Southwest Central Ohio EDR contains both the Dayton and Springfield MSAs, much of the region is very rural in nature. In total, the region has a positive net flow of commuters traveling in to work: about 8,800 workers. This total excludes commuting between counties within the region. Not surprisingly, Montgomery County has the strongest in-flow of commuters: 288,000. Greene County has the largest proportion of its workforce coming in from surrounding counties: 46.9 percent.

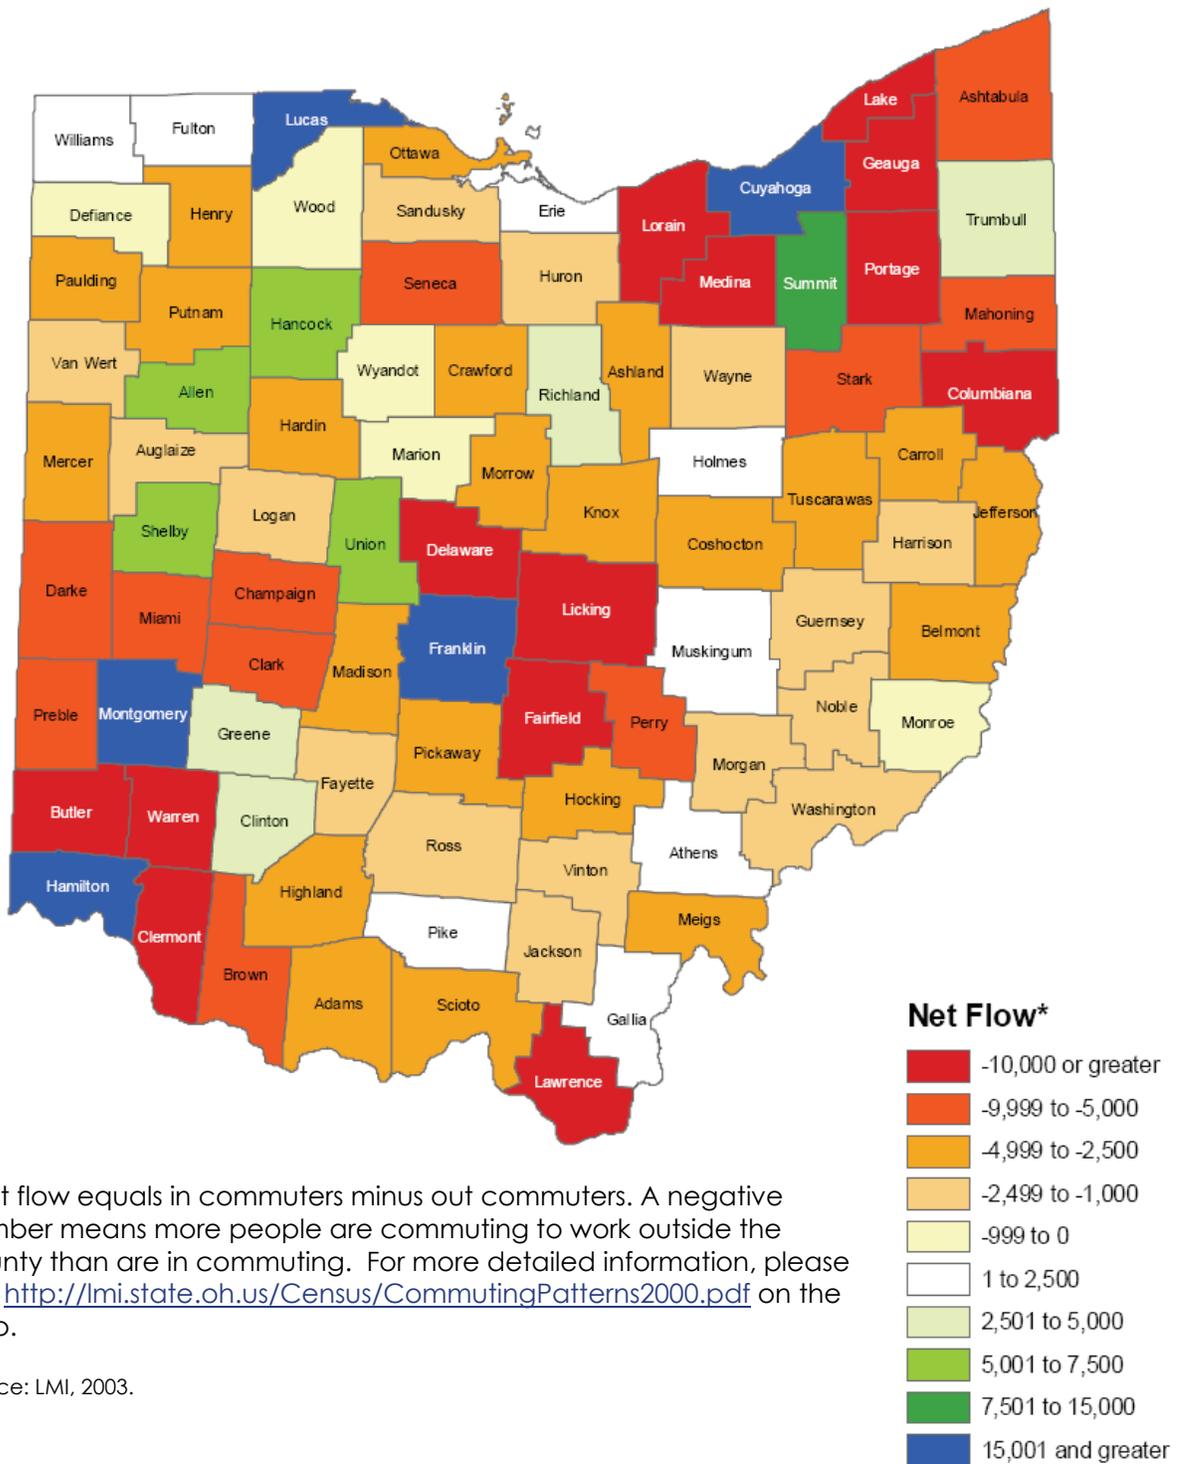

**Figure 1: Regional Commuting Patterns**

County	In-Commuters			Out-Commuters			Net Comparisons	
	Working in the County	In-Commuters	Percent of In-Commuters	Employed Living in the County	Out-Commuters	Percent of Out-Commuters	Net Flow of Commuters	Percent of Total Commuters
Champaign	12,897	4,028	31.2%	18,905	10,036	53.1%	-6,008	-42.7%
Clark	57,637	12,500	21.7%	65,887	20,750	31.5%	-8,250	-24.8%
Clinton	24,277	10,398	42.8%	19,949	6,070	30.4%	4,328	26.3%
Darke	19,871	3,885	19.6%	25,303	9,317	36.8%	-5,432	-41.1%
Greene	76,312	35,806	46.9%	72,958	32,452	44.5%	3,354	4.9%
Miami	44,378	13,203	29.8%	49,799	18,624	37.4%	-5,421	-17.0%
Montgomery	288,140	76,946	26.7%	259,419	48,225	18.6%	28,721	22.9%
Preble	12,119	2,833	23.4%	20,226	10,940	54.1%	-8,107	-58.9%
Shelby	29,169	10,982	37.6%	23,582	5,395	22.9%	5,587	34.1%
<b>Southwest Central Ohio</b>	<b>564,800</b>	<b>50,587</b>	<b>9.0%</b>	<b>556,028</b>	<b>41,815</b>	<b>7.5%</b>	<b>8,772</b>	<b>9.5%</b>

Figure 2 on the next page shows a visual summary of the net flow of commuters from the 2000 decennial census. Most workers commuting into a county to work usually do so from adjacent counties. Detailed county-to-county commuting is shown in Appendix C.

<sup>1</sup> Goldstein, 2005 (p. 1).

Figure 2: Net Flow of Ohio Commuters

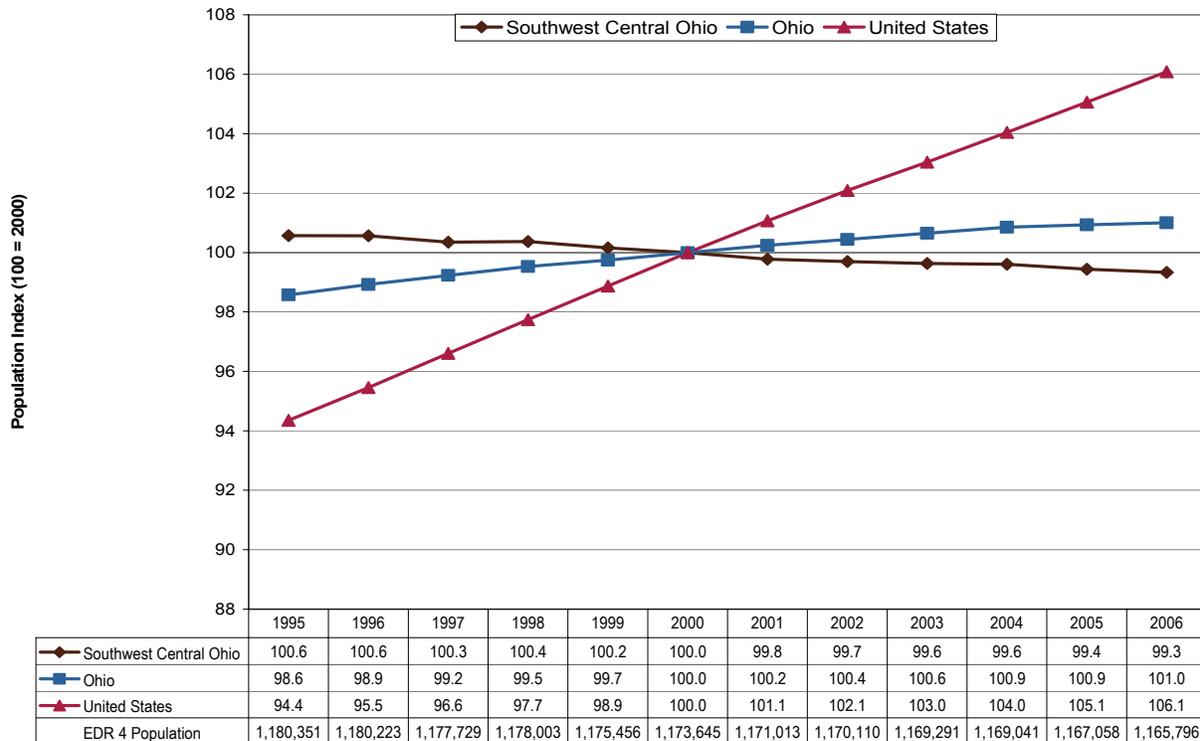

\*Net flow equals in commuters minus out commuters. A negative number means more people are commuting to work outside the county than are in commuting. For more detailed information, please visit <http://lmi.state.oh.us/Census/CommutingPatterns2000.pdf> on the web.

Source: LMI, 2003.

## II. Economic Indicators

**Population Trends.** Total population in Southwest Central Ohio was approximately 1.17 million residents. In the past ten years, regional population has fallen 1.2 percent, mainly due to declines in Montgomery County (-5.5% over this period). For comparison, Ohio's population rose 2.5 percent during this period while national population grew 12.4 percent.

**Figure 3: Population Trends, 1995-2006**

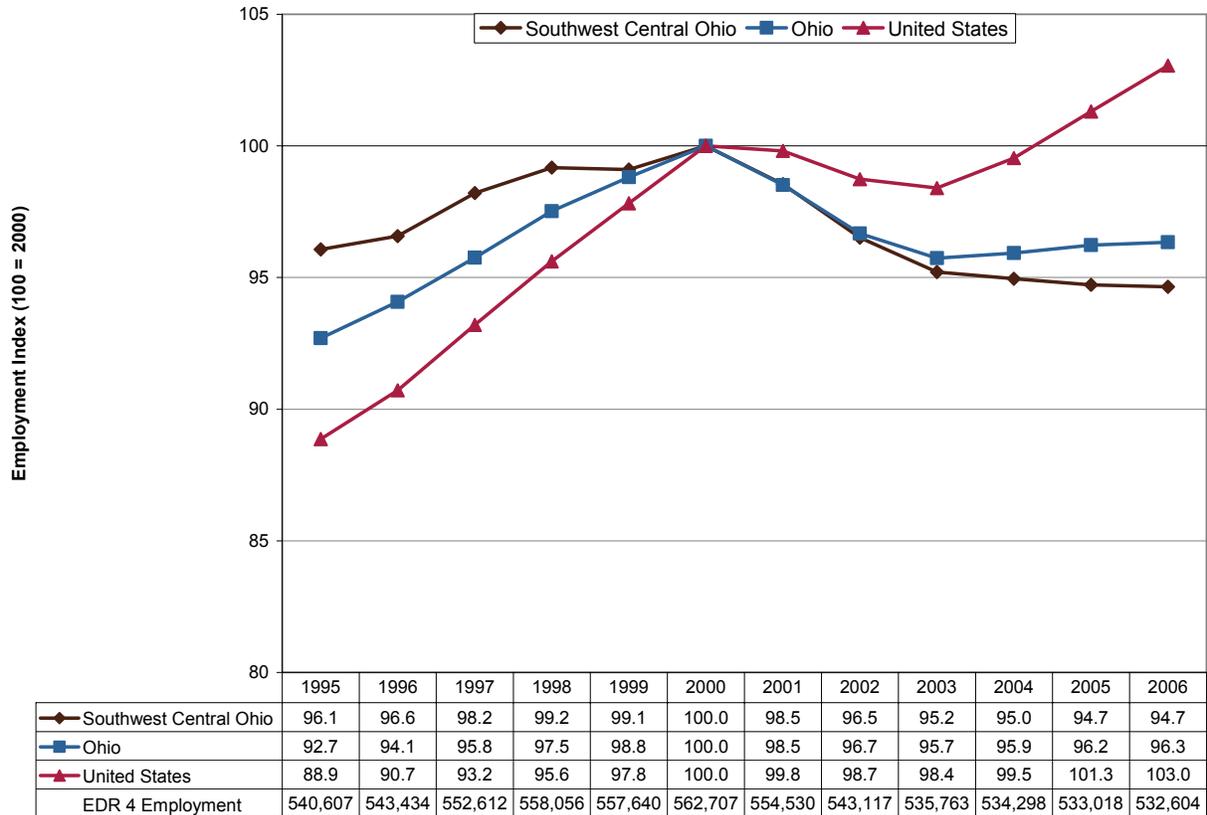

**Demographic Traits.** Population estimates from 2006, shown in Figure 4, reveal differences between this EDR and the rest of the state and nation. Southwest Central Ohio has a slightly smaller prime working-age population than the rest of Ohio, only 40.7 percent between 25 and 44, compared with 42.0 percent statewide. There is also a larger elderly population 55 and older: 25.6 percent.

**Figure 4: Demographic Characteristics, 2006**

	United States		Ohio		Southwest Central Ohio	
<b>Total</b>	<b>299,238,484</b>	<b>100.0%</b>	<b>11,478,006</b>	<b>100.0%</b>	<b>1,165,796</b>	<b>100.0%</b>
Under 5	20,417,636	6.8%	734,735	6.4%	73,798	6.3%
5 to 14	40,337,284	13.5%	1,534,571	13.4%	153,442	13.2%
15 to 24	42,435,426	14.2%	1,597,458	13.9%	165,329	14.2%
25 to 34	40,415,979	13.5%	1,459,394	12.7%	142,071	12.2%
35 to 44	43,666,950	14.6%	1,621,662	14.1%	159,950	13.7%
45 to 54	43,278,174	14.5%	1,738,480	15.1%	172,706	14.8%
55 to 64	31,586,683	10.6%	1,259,712	11.0%	134,565	11.5%
65 and older	37,260,352	12.5%	1,531,994	13.3%	163,935	14.1%

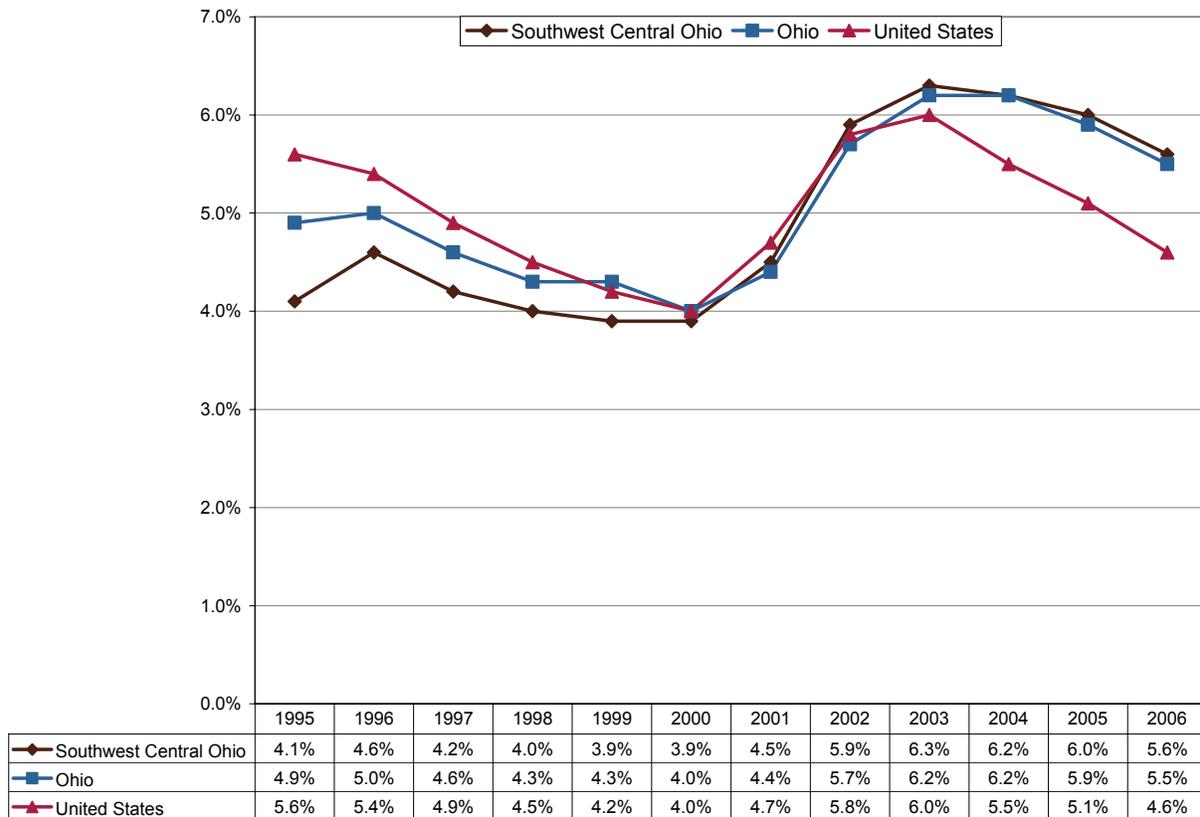

**Employment Trends.** There were over 532,000 people working in this area in 2006. Regional nonfarm employment trends have followed a pattern similar state and national employment between 1995 and 2006, with employment levels dropping 5.3 percent since 2000. Again, Montgomery County had the largest individual decline, shedding about 30,000 jobs (-9.8%) since 2000. The rest of Ohio has also sustained significant job loss during this time span (-3.7%). While there was net employment loss nationwide with the 2001 recession, the U.S. as a whole recovered by 2005.

**Figure 5: Nonfarm Employment Trends, 1995-2006**

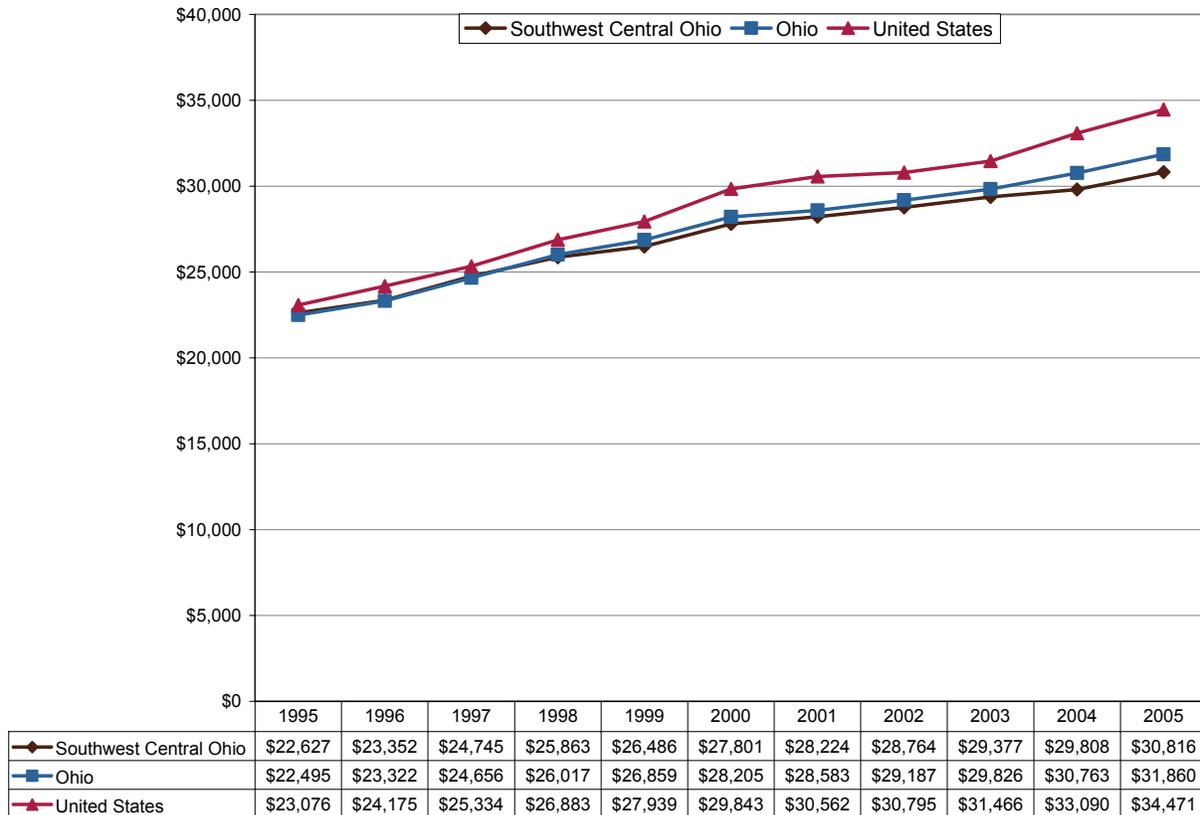

**Unemployment Rate Trends.** The unemployed are those in the non-institutional population 16 years or older who were not employed during the reference week but were actively seeking work, waiting to be called back to a job after a layoff, or waiting to report within 30 days to a new job. Southwest Central Ohio's unemployment rate in 2006 was 5.6 percent. The unemployment rate in this region has behaved very similarly to the statewide rate since 2000. Since the last peak in 2003, the regional unemployment rate has fallen 0.7 percentage point, the same rate of decline as the rest of Ohio. The unemployment rate here has generally been higher since the last recession than the national rate (4.6% in 2006).

**Figure 6: Unemployment Trends, 1995-2006**

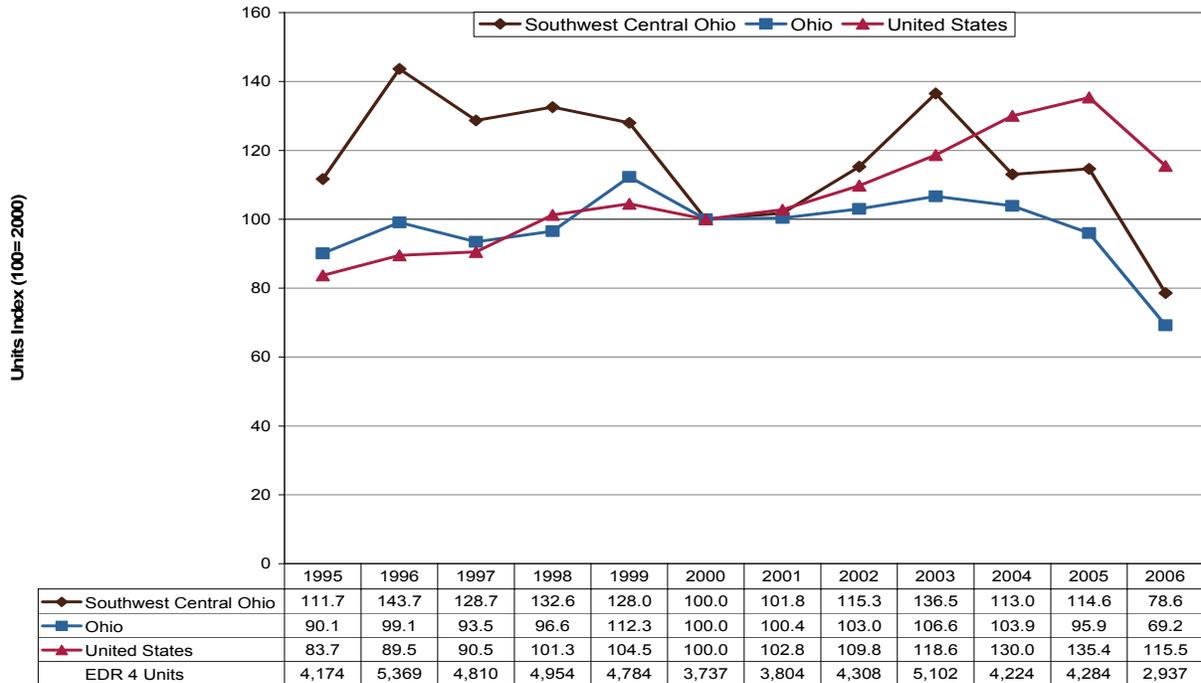

**Per Capita Income Trends.** Urban areas tend to have higher income levels in general than rural areas. Because this region has a similar mix of urban and rural counties as the rest of the state, per capita income levels have also been quite similar. Per capita income in Southwest Central Ohio in 2005 was \$30,816, compared with \$31,860 in Ohio and \$34,471 in the U.S. Per capita income has grown at a slower rate than elsewhere in the state with a 3.1 percent annual compound growth rate between 1995 and 2005. Ohio's income grew by 3.5 percent and the U.S. by 4.1 percent.

**Figure 7: Per Capita Income, 1995-2005**

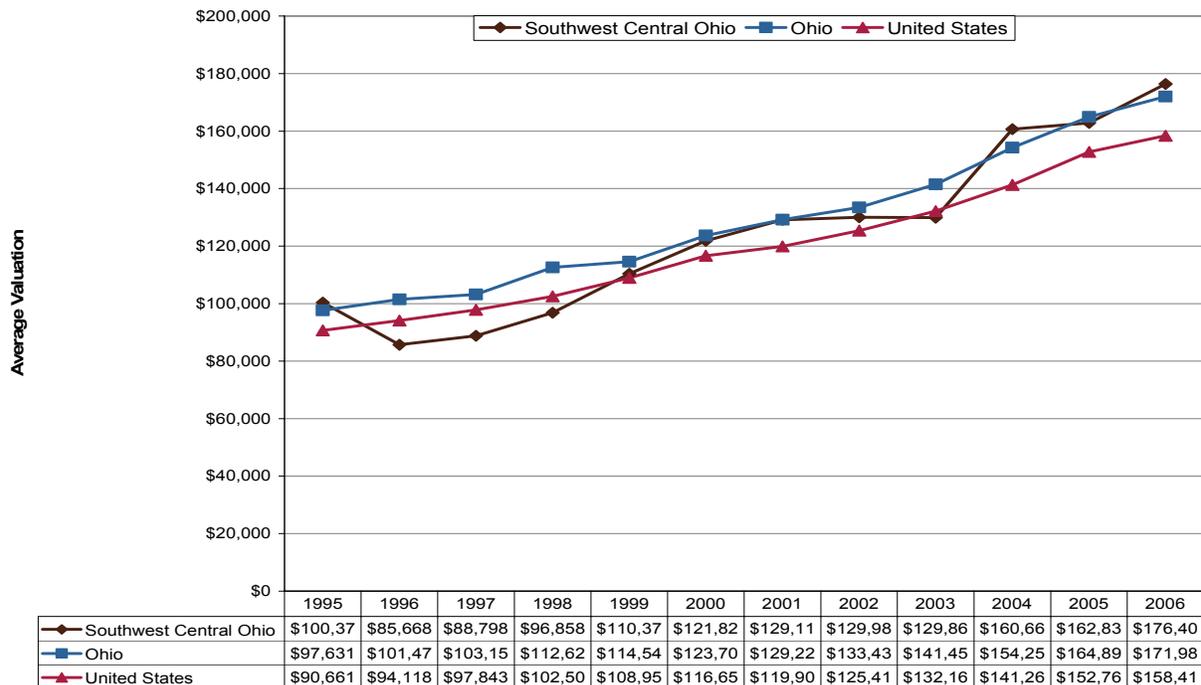

**Residential Construction Permit Trends.** About 2,900 residential units were permitted in the Southwest Central EDR in 2006, mostly in Montgomery County. Residential construction activity has fallen significantly from its high point in 2003 when permits for about 5,100 units were issued. Average valuation has risen steadily from 1995 to 2006.

**Figure 8: Number of New Residential Building Permits**

**Figure 9: Valuation of New Residential Building Permits**

### III. Employment Projections to 2014

**Projections by Industry Sector.** Figure 10 below shows projections from the Job Outlook to 2014 for Southwest Central Ohio. As of 2004, approximately 21.3 percent of all area employment was in goods-producing industries such as manufacturing, just slightly higher than statewide (19.9%). The remaining 78.7 percent of employment was in service-providing industries such as retail or healthcare.

Between 2004 and 2014, Southwest Central Ohio is projected to add 23,200 jobs (4.0%), the majority in service-providing industries. The fastest expanding industry sector by far will be education and health services, which includes hospitals, clinics and private schools. This sector is expected to create nearly 14,000 jobs (18.5%) during this ten-year span, unsurprising since demand for health care will likely grow as the baby boom generation ages and new medical technologies emerge. Other growth sectors include finance and insurance (12.5%), administrative and waste services (9.4%); and accommodation and food services (5.4%). Manufacturing is projected to sustain the greatest losses, shedding 11,300 jobs during this period (-12.0%).

**Figure 10: Southwest Central Ohio Projections to 2014 by Industry Sector**

Industry Sector	2004 Annual Employment	2014 Projected Employment	Change in Employment 2004-2014	Percent Change 2004-2014
<b>Total Employment</b>	<b>585,900</b>	<b>609,100</b>	<b>23,200</b>	<b>4.0%</b>

**Projections by Occupational Group.** Figure 11 below shows Southwest Central Ohio's employment projections arranged by major occupational group. In 2004, the largest groups in this region were office and administrative; production; sales and related; and healthcare occupations.

On average, there will be about 16,000 job openings per year in this region. Healthcare occupations are projected to add 9,300 jobs from 2004 to 2014 (19.9%), with nearly 1,800 openings per year on average. Other fast-growing occupational groups include computer and mathematical occupations (18.1%); personal care and service (10.7%); education, training and library (9.8%); and sales and related occupations (4.2%).

Note that although production occupations are projected to lose nearly 7,000 jobs over these ten years (-9.5%), there are also a large number of average annual openings expected for this group. In general, three out of every four openings will be replacement hires.

**Figure 11: Southwest Central Ohio Projections to 2014 by Occupational Group**

Occupational Group	2004 Annual Empl.	2014 Proj. Empl.	Change in Employment		Avg. Ann. Openings

**High Prospect Occupations.** A high prospect occupation is one that pays at least \$12 per hour on average and is expected to have at least 25 average annual openings. There are about 100 such occupations identified for Southwest Central Ohio. Figure 12 shows these high prospect occupations arranged by required education and training.

**Figure 12: High Prospect Occupations in Southwest Central Ohio**

## IV. Education & Training

**Educational Attainment.** A comparison of educational attainment among adults 25 or older as shown below in Figure 13 reveals only some very slight differences between this EDR and the rest of Ohio. Southwest Central Ohio has a slightly larger proportion of adults who attended some college but did not attain a degree and overall a larger proportion with at least some postsecondary education (48.0% versus 46.9%). The region has a somewhat smaller proportion of postsecondary degree completers, however. Overall, the two educational profiles are highly similar.

**Figure 13: Educational Attainment, 2000**

**Degree Completions.** There are 35 postsecondary training providers in Southwest Central Ohio offering nearly 1,900 different programs: 3 public adult schools with vocational programs; 17 two-year technical and community colleges; 13 four-year colleges and universities; and 2 private technical schools. From 2005 to 2006, the number of awards completed at these institutions grew by nearly 1,400 (10.3%). For comparison, Ohio awards rose only 3.7 percent. Most growth was in bachelor's and master's degree programs. Details on educational institutions and program completers are available in Appendices E and F, respectively.

**Figure 14: Degree Completions in Southwest Central Ohio**

Award Type	2005	2006	Net Growth
Postsec. Awards; < 2 yrs.	1,894	1,951	57
Associate's Degrees	2,670	2,922	252
Bachelor's Degrees	5,704	6,044	340
Master's Degrees	2,260	2,890	630
Doctor's Degrees	100	152	52
First-Professional Degrees	282	273	-9
All Other Awards	290	329	39
Totals	13,200	14,561	1,361

**Skills-Based Projections.** The Bureau of Labor Market Information recently analyzed occupational projections to determine the workplace skills that will be in demand in 2014. There are 35 skills that have been identified as potentially related to a job by the Occupational Information Network (O\*NET) system. Skills are learned capabilities that allow workers to master and perform the specific activities of their jobs. On average, each occupation has about five skills associated with it. For additional details on how the skills-based projections analysis was conducted, please refer to the Technical Notes at the end of this report.

Figure 15 on the facing page ranks all 35 skills by the projected need for training and gives several importance measures for both Southwest Central Ohio and the entire state. The first, supply rank, ranks the skills based on how many jobs today require each. Percent demand gives the proportion of average annual openings through 2014 that will require a skill, with higher percentages indicating stronger demand. The gap index is the difference between the available supply of a workplace skill and its projected demand, standardized to a range of 0 to 100. A higher gap index indicates stronger need for training. Finally, the replacement index gives the proportion of projected annual openings requiring a given skill that will arise to replace exiting workers (e.g. through dismissals, retirements, etc.) rather than to fill a new position. Demand for skills with higher replacement indices may be tempered with poor employment growth.

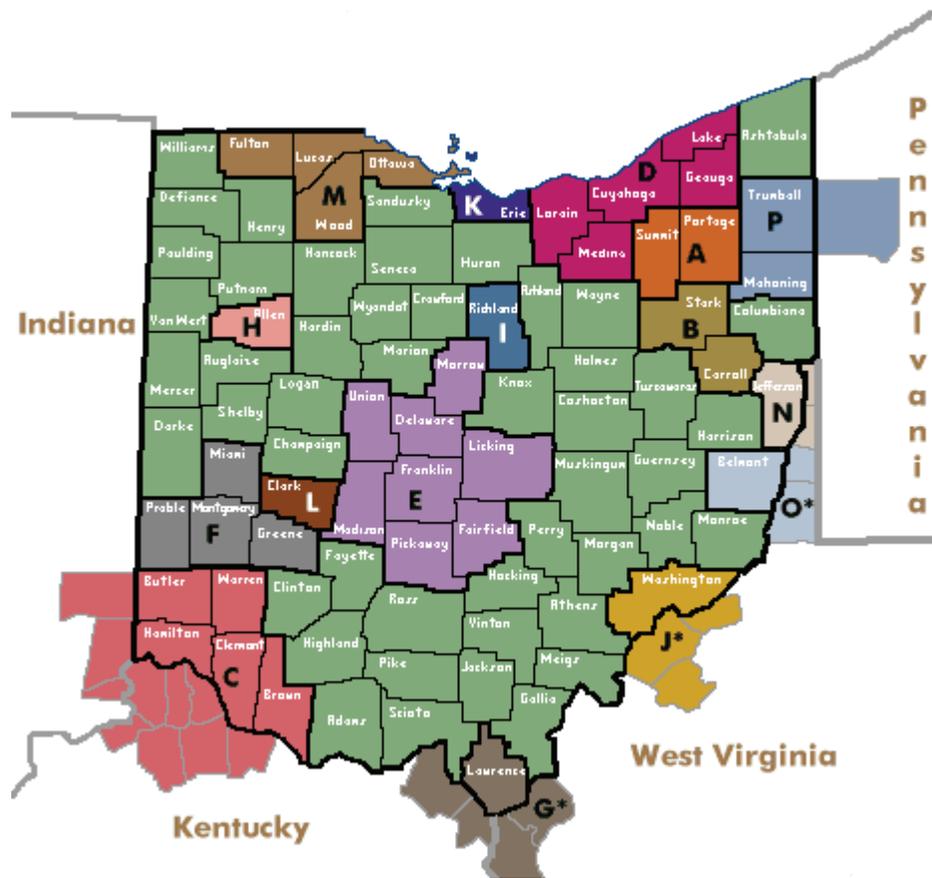

Through 2014, reading comprehension will be the most highly-demanded workplace skill in Southwest Central Ohio, required in over half of all projected job openings. It also has the strongest projected gap between available supply and projected demand. Other skills with high projected supply gaps include speaking, critical thinking, active listening and coordination.

There are several workforce skills that are projected to be in greater demand in this EDR than statewide, including *all* of the top ten ranked skills. More than elsewhere in Ohio, this region will be highly dependant on a highly skilled and trained workforce in the coming years.

**Figure 15: Projected Skills Needs for 2014**

Skill	Southwest Central Ohio				Ohio	
	Supply Rank	Percent Demand	Gap Index	Repl. Index	Percent Demand	Gap Index

Office of Workforce Development  
P.O. Box 1618  
Columbus, OH 43216-1618

**Bureau of Labor Market Information  
Business Principles for Workforce Development**

Partner with the workforce and economic development community.

Develop and deploy new information solution tools and systems for the workforce and economic development community.

Provide products that are customer and demand driven.

Be known as an important and reliable source for information solutions that support workforce development goals and outcomes.

The Workforce Research Section, under the direction of Labor Economist Larry Less, was responsible for the composition of this report. Labor Market Analyst Jonathan Calig was primarily responsible for production. Thanks are extended to the many other analysts who developed and reviewed the data presented herein. This publication was prepared under the supervision of Labor Market Information Bureau Chief Keith Ewald and Assistant Bureau Chief Rudy Wilkinson.

This report was prepared by the Ohio Department of Job and Family Services, Office of Workforce Development. For further information, visit our website at <http://lmi.state.oh.us> or contact the Ohio Bureau of Labor Market Information at 1-888-2WORK-411 or 1-888-296-7541.
